## ABOUT THE STATE.

Items of Interest Gleaned From Our Exchanges.

Roland Parry, of Poulin, died Sunday at his home soon after his return from the hospital at Rutland where he had been receiving treatment for cancer. Hugh Evans of the same town, a prominent business man, died on the same day after a lingering illness with bright's disease. He was 72 years of age and was unmarried.

The chart on a self registering thermometer on a building in Merchants Row, Rutland shows that the week ending Monday noon was the one having the most even temperature of any during the winter. It showed that the lowest was right below zero and that only once did the mercury go above freezing point and then only to 32 degrees.

P. E. Howley and James M. O'Brien of Rutland, members of the firms of Hopkins and Hawley and D. B. Triggs & Co., respectively, have formed a partnership and will open a new clothing store in a new building on West street in that city. The firms to which they formerly belonged were burned out in the recent great conflagration at that city.

When the Rutland county court reconvened Monday afternoon after its Sunday recess, the court room was crowded with spectators to hear the case of John Smith, proprietor of Bridget McManus' will, vs. James Quigley and Jane Cunningham, contestants appellants. The case is one that has evoked a good deal of interest in Rutland.

Seven thousand acres of timber land in Sunderland were purchased Saturday by H. E. Eddy, a law student in C. C. Fitts' office. This makes a total of 10,000 acres of timberland purchased by Mr. Eddy in a month. The purchases were in the name of C. C. Fitts and were for Livingstone-Cushing of Boston, who already owns vast tracts of timber land in Vermont.

Burlington's special policemen evidently do not amount to much according to the Burlington News. Two of those gentlemen "went with one Borotte, to the house of the Sheehan brothers to help the former to make a settlement with the latter for throwing a tin can through a window at the home of Borotte's mother. William Sheehan came out in response to Borotte's summons and then called into his brother. The two of them walked into the Borotte's home and gave him a nice whipping right in front of the policeman.

The board of health of Winooki is much incensed over the action of Mrs. Charles Fitzpatrick of that place. Mrs. Fitzpatrick's son has been very ill with scarlet fever and is now in that stage of the disease when he is most apt to spread it. The house was quarantined on March 2nd and a few days after that one of the Fitzpatrick children was seen at the house of a neighbor, playing. The child was sent home but not long afterward the mother, herself was out calling as if there were no quarantine on the house. Dr. Burdick, the health officer, was notified and when he called to investigate, he found that Mr. Fitzpatrick had left town on last Friday. The health officer was informed that she had gone to Schenectady, N. Y., to visit relatives. He promptly communicated with the president of the Schenectady board of health and was informed that the woman would be put under quarantine in that city.

He had traveled from Lake Huron to the Gulf of Mexico, and from Maine to California, yet he didn't seem to know  
Whether Utah and Montana were adjoining states or not,  
Whether Kansas had a climate that was mild or cold or hot;  
And he said that he had never, on his journey through the land,  
Seen a thing that seemed to strike him as unusual or grand.

Past Niagara and Shasta he had gone upon his way,  
Caring nothing for the grandeur they were fashioned to display;  
Through rich valleys and wild canons he rode playing solitaire,  
Never glancing at the wonders that were spread around him there;  
And he pitied the poor people who preferred to spend their time  
Gazing out at things they'd read of—the delightful and sublime.

## THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send for the Experiment Station in its bulletin No. 116 has the following to say with reference to the value of home-made fertilizers as compared with the ordinary commercial brands: "On every account, however—financial, educational, agricultural—it is better to buy the crude stock and home mix if one uses a few minutes."

Free to Farmers.

To any farmer who will write us, mentioning this paper, we will send free, postpaid, several formulas for making a first-class fertilizer at home, together with the cost of the ingredients, directions for mixing, etc.

The Vegetable Experiment Station in its bulletin No. 116 has the following to say with reference to the value of home-made fertilizers as compared with the ordinary commercial brands: "On every account, however—financial, educational, agricultural—it is better to buy the crude stock and home mix if one uses a few minutes."

Doctors Are Puzzled.

The remarkable recovery of Kenneth Melver of Vancouver, Me., is the subject of much interest to the medical fraternity and a wide circle of friends. He says of his case: "Owing to severe inflammation of the throat and congestion of the lungs, three doctors gave me up to die when, as a last resort, I was induced to try Dr. King's New Discovery, and I am happy to say it saved my life." Cures the worst coughs and colds, bronchitis, tonsillitis, weak lungs, hoarseness and la grippe. Guaranteed at the Red Cross Pharmacy, 50c and \$1.00. Trial bottle free.

We Recommend

Li-al-Gay's warranted Laxative Cough and Cold cure—because it contains No Morphine or other Habit Forming Drug, but contains the best ingredients known to medical science for Coughs and Colds, and will pay back your money if not satisfactory.
